Evolved Innovation

FLiP is the market's stand-out door glazing cassette system developed by DoorCo with revolutionary Foam in Place technology that delivers a superior seal. Two years on from its launch, the FLiP system has received an upgrade to make it even quicker and easier to install and even safer for the homeowner. Alongside a new corner and connector design, the range now offers more designs and colours than ever before.

With FLiP you can be:

- Traditional with **Standard** - The redesigned moulded option with a woodgrain finish.
- Eclectic with **Flat Grained** - Squared-off flat profile with a woodgrain finish.
- Modern with **Flat Stipple** - Squared-off flat profile with a smooth, stippled effect.

FLiP is the ultimate in door glazing systems.

DESIGNED & MADE
IN BRITAIN

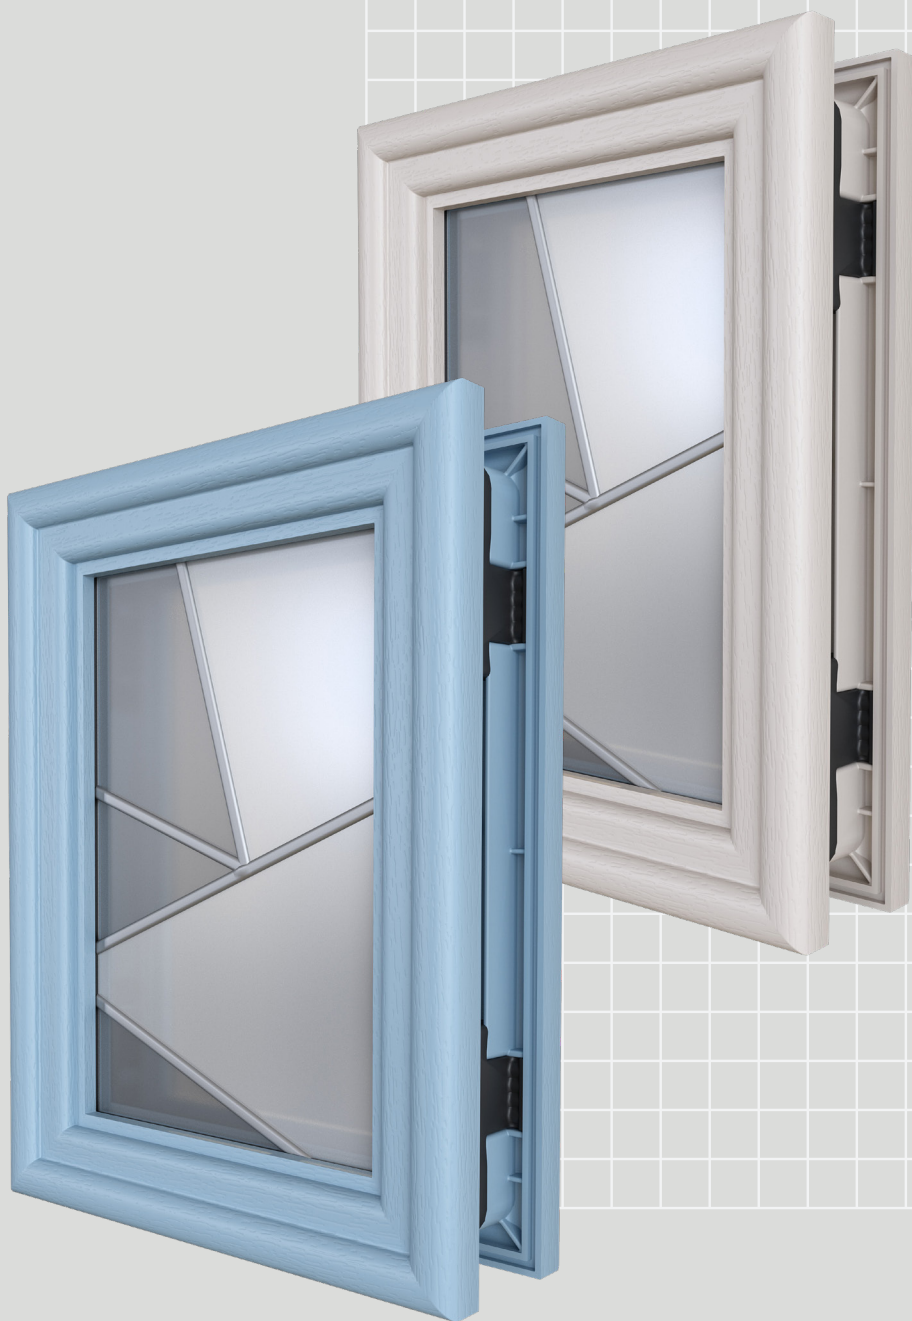

QUICKER, EASIER, SAFER.
GIVING YOU EVEN MORE REASONS TO FLIP.

"We choose to use FLiP for it's Foam In Place technology that allows us to say goodbye to glazing tape and wet seals. It makes it quicker and easier for us to glaze our doors."

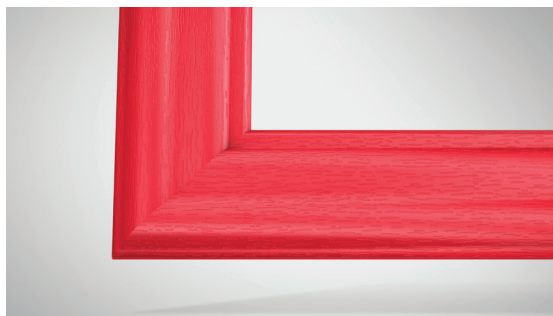

TONY CRAGGS, PORTICO DOORS

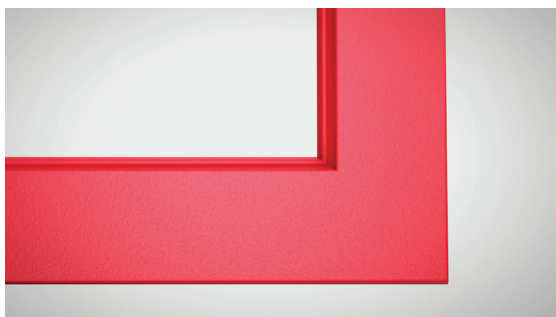

FLiP Features and Benefits

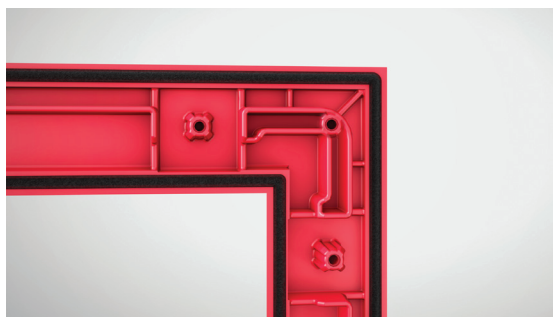

Be eclectic with **Flat Grained**, combining a woodgrain finish with a modern squared-off flat profile that compliments a contemporary Flush or designer Monza II door.

Standard is the traditional choice, with a moulded design and a woodgrain finish to suit our farmhouse door range.

Flat Stipple is the contemporary one, with a squared-off flat profile and smooth stippled finish that perfectly matches Links, our aluminium-effect composite door.

Pre sealed with revolutionary Foam in Place technology creates a superior seal that prevents any water ingress.

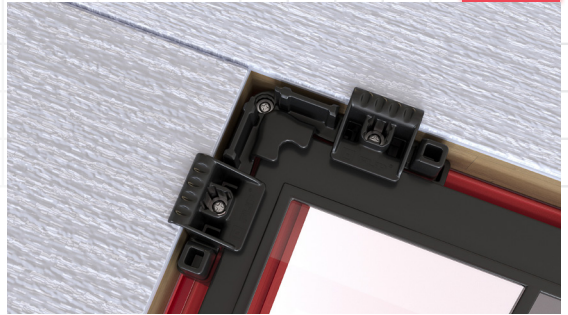

All FLiP cassettes come with a 10 year warranty.

NEW

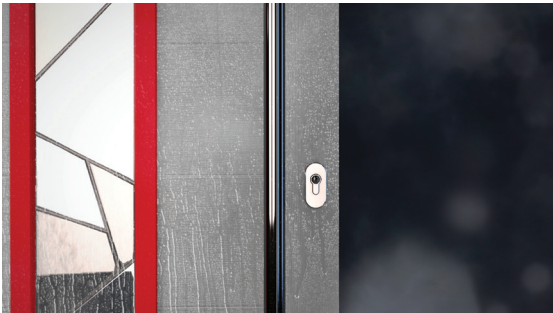

Pre-fixed corners and connectors for quicker and easier glazing. Glaze a door with FLiP in half the time of a competitor system.

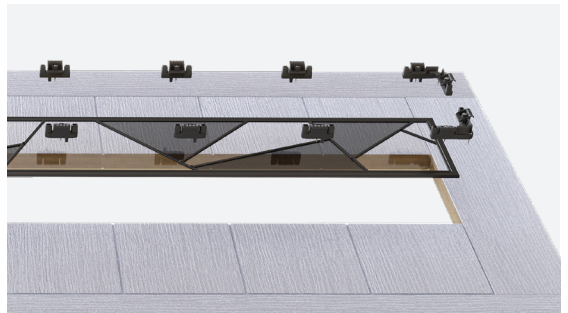

NEW

Innovative new corner and connector design provides additional security by clamping both directly to the door slab and to the glass unit internally and externally.

Extensive testing ensures FLiP is weatherproof and secure, achieving over 1000pa through the glazing aperture. They have also been tested to BS6375-2015 and in accordance with EN1027.

Fully re-glazeable system. Simply remove cassette and unscrew to start from scratch.

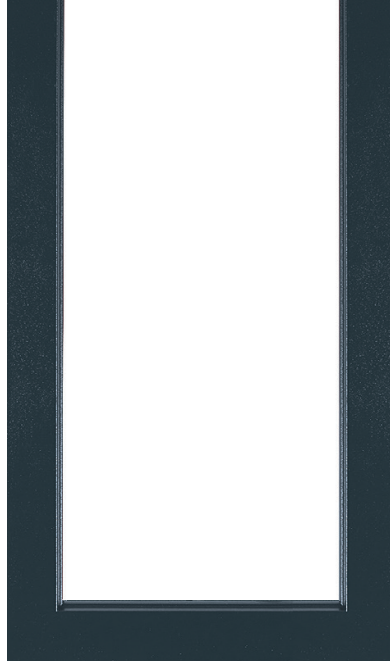

Inside FLiP

Moulded Connector. Adds strength and stability to the cassette. Ensures a flush fit to the door is achieved and maintained.

Additional Security. The new design offers additional security features thanks to the addition of a third screw in the corner unit.

Foam in Place Technology. The pre-applied foam not only creates a superior seal but also saves time and money during install by removing the need for glazing tape or wet seals.

Standard Colour Range

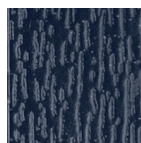

FLiP's Through Colour Technology ensures a perfect match to the DOORCO standard colour range.

Please Note.

Cassette colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the cassette. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your cassette, ask for your DOORCO colour swatch today.

FREEDOM OF CHOICE

ANY STYLE. ANY FINISH. ANY COLOUR.

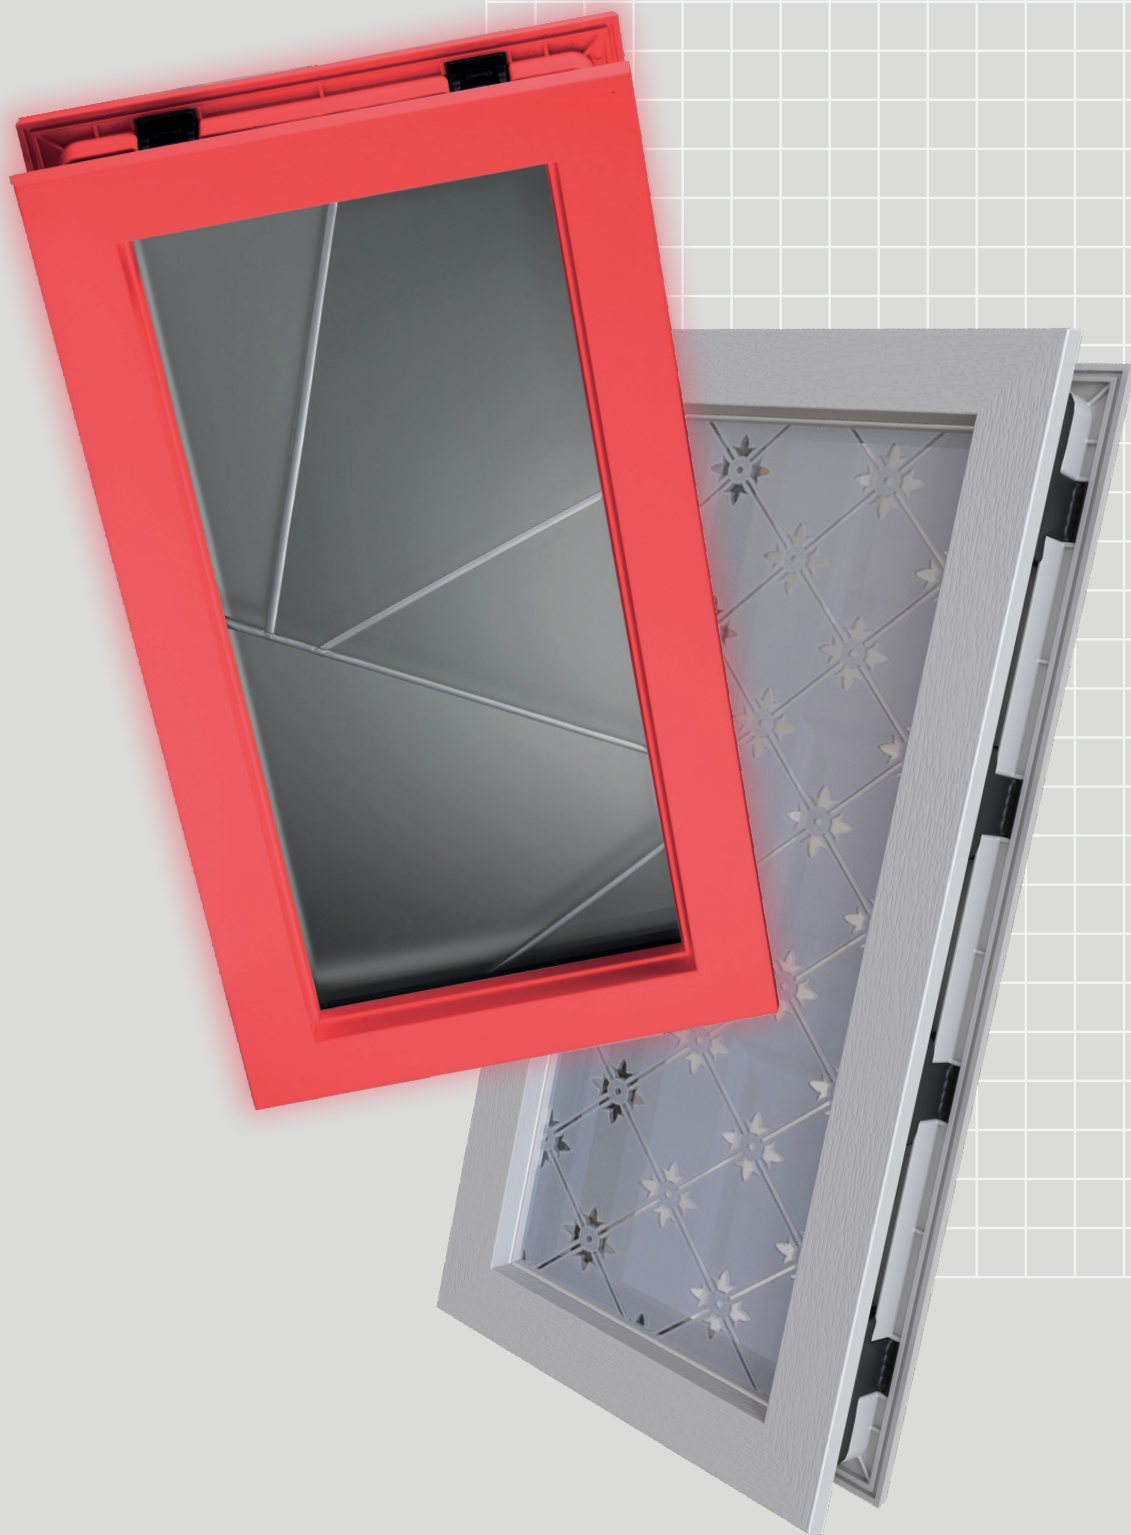

Our doors are a canvas that is versatile and comes in all shapes and sizes. FLiP offers the freedom to choose the design, finish and colour to suit any style of house and make a unique statement. FLiP is available in three design options to include clean modern profiles through to traditional bevels.

FLiP is available to perfectly match the DOORCO standard colour range, or if you're looking for something different, your choice of cassette and door can be painted together using our bespoke colour service.
